

The problems early in the monitoring process (before October) were discussed at the PMC meetings and were acknowledged by NPHDB. There was an undertaking at this time by BAM and NPHDB to improve on this and in general, there has been an improvement on how and when the information is being issued. In relation to the Dust Monitoring Results it is noted that the monitoring periods have shifted to cover a period from 4/5th of each month to the 4/5th of the following month. This has pushed out the date of availability of the information somewhat.

Data for Month	Data Received:		
	Dust	Vibration	Noise
May-17	2 Reports Received: 12/06/2017	2 Reports Received: 12 June 2017 and 3rd October 2017	2 Reports Received: 12 June 2017 and 3rd October 2017
Jun-17	1 Report Received: 19/07/2017	3 Reports Received: 21 June 2017 and 3rd October 2017	3 Reports Received: 21 June 2017 and 3rd October 2017
Jul-17	1 Report Received: 08/08/2017	2 Reports Received: 2nd and 3rd October 2017	2 Reports Received: 2nd and 3rd October 2017
Aug-17	1 Report Received: 08/09/2017	2 Reports Received: 7 Sept and 3 October 2017	2 Reports Received: 7 Sept and 3 October 2017
Sep-17	1 Report Received: 01/11/2017	3 Reports Received: 26 Sept, 2 Oct, 4 Oct 2017	3 Reports Received: 26 Sept, 2 Oct, 4 Oct 2017
Oct-17	1 Report Received: 21/11/2017	4 weekly Reports Received: 1st November 2017	4 weekly Reports Received: 1st November 2017
Nov-17	2 Reports Received: 21/11/2017 and 19/12/2018	4 weekly Reports Received: 21 November 2017 and 2nd January 2018	4 weekly Reports Received: 21 November 2017 and 2nd January 2018
Dec-17	1 Report Received: 15/01/2018	4 weekly Reports Received: 15th January 2018	4 weekly Reports Received: 15th January 2018
