

# Residents Alliance Group

Workshop 1 Residents Alliance Group Information session presentation [here](#)

Attendance 22 not including representatives of Atkins Global and Future Analytics

16 completed questionnaires “What Next”

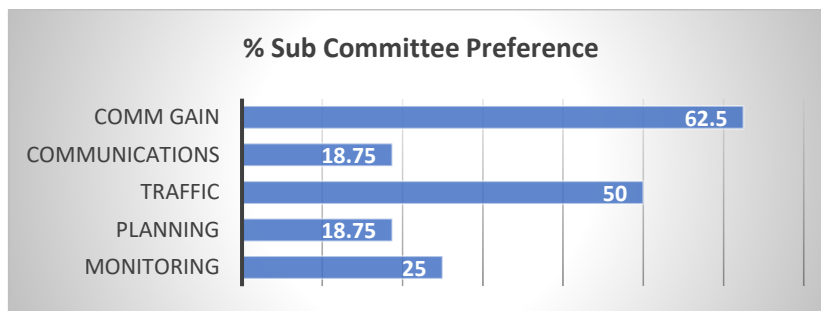

## Communication

100% of respondents wish to be on a mailing list

87.5% of respondents wish to be on “alert” list.

## Structures

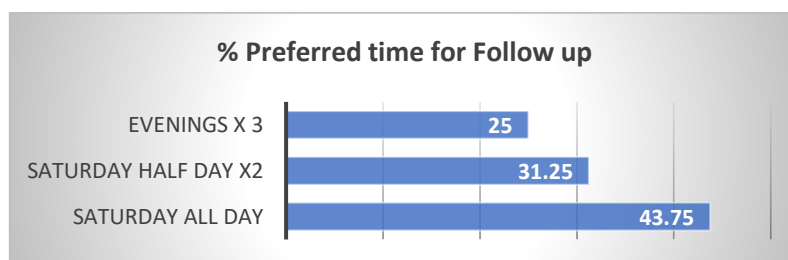

93.5% of respondents wish to continue to be involved in the RAG Umbrella Group and of those the following is the breakdown of preferred membership of working sub committees

In the follow up meeting it appears that both Community Gain and Traffic are viable sub committees and the Monitoring and Planning may well be a joint committee, but this is for discussion at the next planning meeting.

## Follow up Planning Session

87.5% of respondents wish to participate in a follow up planning meeting, three options were presented and the preference was for a Saturday rather than a weekday as a time.

Agreeing a Saturday that maximises attendance is the next action.

## Other issues

Other issues raised included

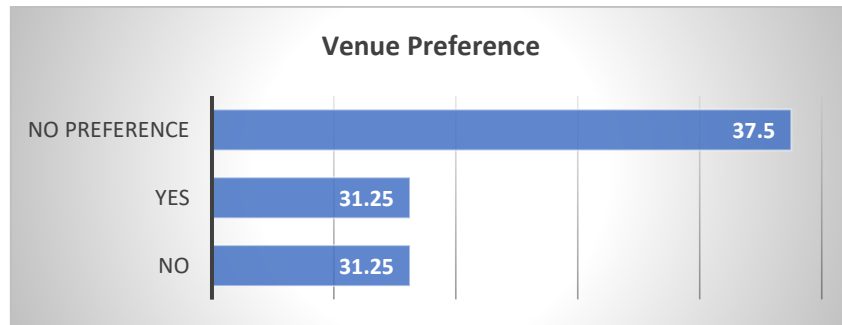

- Missing Groups; New Ireland Road / Suir Road
- Issues; Planning compliance enforcement and licensing of works
- Other; Information dissemination

## Venue

This question was asked because some residents groups believe that the Residents Alliance Group should meet in a neutral venue and not the NCH/NHDB offices.

31.25% do not wish to meet in NCH Office.

The table below shows a pretty even divide amongst respondents , in real terms, 5 people do not want to use the venue, 5 want to use the venue again and 6 people did not indicate any preference.
